

PRESS RELEASE

PHARMATEK SOLUTIONS INC. AND SIMPLYQMS ENTER PARTNERSHIP AGREEMENT.

IMPROVING QUALITY MANAGEMENT SYSTEMS FOR LIFE SCIENCES BUSINESSES GLOBALLY

San Ramon, CA and San Diego, CA – 02 February 2024 – Pharmatek Solutions Inc. and SimplyQMS are pleased to announce they have entered into a strategic partnership, combining Pharmatek Solution’s industry leading GxP Quality Consulting services with SimplyQMS’ straightforward approach to Quality Management System (QMS) software. With this partnership, Pharmatek customers will now be able to adopt a streamlined QMS program while enjoying value added service from Pharmatek Solution’s Quality Management team.

With technology playing an increasingly critical role in every aspect of regulated business, life sciences companies recognize the need for the adoption of digital solutions to ensure they remain compliant through the life cycle of their therapy. The Pharmatek-SimplyQMS partnership combines skills in GxP Quality, audit administration, document development and training, and change management to help support clients from phase I to post-market activities.

“Simply QMS streamlines essential QA tasks into a simple, easy to use solution, which is a breath of fresh air when it comes to Quality Solutions.” said Jeanine Pitts, Global Head of GxP Quality and Compliance for Pharmatek Solutions. “This partnership allows both entities to offer a whole new level of service solutions to our clients and we are thrilled to be working together.”

With this partnership agreement, Pharmatek Solutions is now the preferred vendor for on-boarding and support services during the adoption of SimplyQMS by life science businesses. Pharmatek Solutions will assist with the implementation of, training in, and migration of data to the SimplyQMS software program.
